

ENABLING BUSINESSES TO THRIVE

EXPERIENCE THE POWER OF
TVS-E PRODUCTS AND SOLUTIONS
FOR ENHANCED OPERATIONAL
EFFICIENCY AND PROFITABILITY.

A leading Indian Electronics Product Manufacturer, Solution and Service Provider

Part of the century-old **TVS Group**, one of India's most prestigious and accomplished business conglomerates.

TVS ELECTRONICS (TVS-E) is one of the longest-standing Indian electronics manufacturers with **38 years of strong presence** in the marketplace.

We are ISO-certified for meeting the highest international quality and information security management standards

Management System
ISO 9001:2015

TVS-E emerges as the Leading Front-runner in

Personal & Productivity Products

Point of Transaction Products

Track & Trace Products

Infra Managed Services (IMS)

Warranty Management Services

OUR PRODUCTS AND SERVICES OFFERED ACROSS OUR THREE BUSINESS VERTICALS

We serve both institutional and retail customers with our diverse portfolio.

Product Solutions

The definitive range of Products and solutions For thriving businesses

Our product range makes its presence felt across varied commercial categories through unsurpassed efficiency, proven robustness and a deep understanding of business needs. Our commitment extends beyond hardware provision, and we simplify businesses with our comprehensive, cloud-based solutions that integrate hardware and software components into a streamlined offering.

Embracing the era of digital transformation, our TVS-E Pay, a user-friendly billing solution, empowers small and medium-sized retail businesses to simplify billings and optimize operational efficiency. We have established strategic partnerships with leading software companies, allowing us to deliver comprehensive software solutions bundled with our offerings in the groceries, food, and beverages industries.

Customer Support Services

Empowering businesses with turnkey customer Support services

Customer Support Services at TVS Electronics are not limited to one token service or two. They span a vast spectrum of offerings supported by robust repair infrastructure, trained and qualified professionals and our credibility honed over decades. The wheels of business turn on the axle of customer satisfaction, and we ensure that the course is smooth.

We offer Break fix Services for IT & IT peripherals, Baking POS, Retail POS, Solar Operations and maintenance. And a comprehensive IT Infra-managed services covering the spectrum of workplace services to cyber security.

Service Offerings

TVS Electronics After-Sales services span a vast spectrum of offerings supported by a robust framework of trained and qualified professionals, and our credibility built over Four decades. With a keen understanding of business needs, we provide the appropriate infrastructure that translates into a seamless Plug & Play model for top global and Indian brands

End-to-End Electronics Manufacturing Services

Product Design

Innovative, cost-optimized solutions from concept to final design.

Sourcing

Global network for high-quality, reliable components.

Box Build Assembly

Complete system integration to your specifications, including testing and meeting quality standards.

High quality PCB assembly

Surface-mount and through-hole technologies for precision and efficiency.

Pilot Runs

Low-volume production for design validation.

Prototype Development

Fast, functional prototypes for reduced time-to-market.

Logistics

Seamless supply chain management with optimized inventory control and real-time tracking.

Testing

Rigorous ICT, FCT, and ESS testing services for performance and durability.

Mass Production

High-efficiency, large-scale manufacturing with advanced automation and lean practices.

Industries We Serve

We deliver high-reliability EMS solutions designed to meet industry-specific requirements, ensuring superior quality and compliance with stringent standards, while supporting advanced technologies and sustainable practices across diverse applications

1D BARCODE SCANNER

BS-L100 PLUS

-  1D laser barcode scanner
-  **300 Scans Per Sec**
-  1.5 m drop resistance
-  USB
-  Powerful scanning performance

Features

BS-L150 WL

1D Barcode Wireless Scanner

- 1.5 m drop resistance 
- Powerful scanning performance 
- Plug and play design 
- Battery Capacity: 2200 mAh 
- Scanning Range - 25 meters 
- Scanner Stand 

Features

BS-C101 STAR

1D Barcode Wired Scanner

Express speed at 330 scans per second

1D CCD Imaging technology

Durable and Strong design

Enabled with ultra scan-decoding technology

USB

Features

BS-C103G

1D CCD imager scanner with unsurpassed penetrability

Scan speed of 330 scans per second

Capable of scanning **3Mil** Barcodes

USB

Capable of scanning damaged and low contrast codes

2500 Pixel CCD

Features

2D BARCODE SCANNER

BS-i201g LITE

2D Wired Scanner

Scan speed : 250 scans/sec

Print Contrast 20%

Drop Resistance 1.2M

USB

Features

BS-i201T

2D Wired Scanner

Scan speed : 300 scans/sec

IP54 Protection

Durable and Reliable design

USB

Made in India

Features

BS-i203g

Handheld 2D Wired Scanner

-  300 Scan / Per Sec
-  Barcode Density - **4 Mil**
-  USB Interface
-  STQC Certified
-  Built with high durability, designed to withstand 1.8 MTS drop
-  IP 54 Protection
-  Superior barcode reading and image capture
-  Reads secure high density QR codes

Features

BS-i203z PLATINA

2D Wired Scanner

Superior Scanning performance with High Resolution Imager 

High Scan Speed : 60 fps 

Supports Dual Interface : USB 

Rugged Housing that is suitable for industrial application 

Features

BS-i201s WL

Economical 2D wireless scanner.

Scan speed : 150 scans/sec

40 meters line of sight.

Capable of scanning range -
30 to 50 mtrs

Battery 1400 mAh

Imaging technology

Features

BS-i201s BT

2D Bluetooth Wireless Scanner

CMOS Technology

200 Scans/ Per Sec

Battery Capacity: 2200 mAh

Wireless Distance : 25 meters

Print Contrast 20%

Drop Resistance 1.5 M

Out of range storage enabled

Features

BS-i203g+BT

2D Wireless Bluetooth Scanner

Wireless Barcode scanner for UIDAI (Aadhaar QR reader)

Built-in 512K memory

Higher Battery capacity of 2500 mAh

2.4Ghz Bluetooth Wireless Connectivity

Bluetooth Communication Distance 80-100 meter (in vacant space)

Features

BS-i203s BT LITE

2D Bluetooth Wireless Scanner

Scan Speed : 300 scans/sec

Built-in 512K memory

Instant charging via cradle

Transmission distance of 40 meters via wireless Bluetooth

Battery 1400 mAh

Capability to read embedded barcode

Features

BS-i302g

2D Desktop Scanner

Omni directional scanner

Scan Speed: 2500 scans/sec

Auto trigger

IP54 Protection

Scans low contrast and damaged barcodes also Premium Resolution: 1280*1024

USB Interface

Features

BS-iD0230U

2D Desktop Scanner

3000 Scan per sec

Ultra wide-angle scanning window

Automatic Induction Scanning

Sharp scanning at 20% Print Contrast

Advanced CMOS Decoding Technology

1.5 meters multiple drops to concrete
